VIOLA YOSEVI

Full Stack Developer/Frontend Developer

+62 8318 4206 039 | viola.yosevi19@gmail.com | https://www.linkedin.com/in/viola-yosevi | Bandung, West Java, Indonesia |

SUMMARY

I am a graduate of Padang State Polytechnic with GPA 3.77 in Information Technology. Over the past three years, I've enhanced my skills as a Fullstack Developer, working with various programming languages and frameworks such as PHP, JavaScript, React.js, Next.js, and Laravel. My experience spans from internships to full-time positions where I contributed to projects involving web development, maintenance, and scalability improvements. I am highly adaptable, a problem solver, and thrive in team environments. Currently, I am focused on contributing to the development of innovative solutions in web applications, aiming to enhance performance and user experience while staying abreast of the latest technological advancements.
